**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

ATT has done nothing to maintain let alone improve internet service in the decade I had them as my ISP. While Sonic is marginally faster than ATT, in order for it to improve its service it has to have access to equipment ATT controls---ATT should not be allowed to block small companies that are improving internet service in effect reinstating themselves as a monopoly that provides internet service so bad it can't even be called third world: Most of the third world has much faster internet speeds than US citizens. ATT is not a fair competitor, it is a lurking monopoly and should not be allowed to block Sonic or any other smaller company from improving internet service for people in San Francisco or anywhere else.
